SKILLS

PROGRAMMING

- Use programming languages to study and work such as java, javascript, php, python, c#.

SOFTWARE DEVELOPMENT

- Software development: Experience in developing web applications and mobile applications using frameworks such as react, asp.net, php, android studio, node.js.

DATABASE DESIGN

- Understanding of relational and non-relational database design, experience working with MySQL, MongoDB, Sql.

OBJECTIVE

I am a technology enthusiast, always updating new knowledge and technology. With many years of studying and researching, I have developed mobile applications using Android Studio, built fullstack websites.

My knowledge ranges from JavaScript, HTML, CSS to frameworks such as ReactJS, NextJS. In addition.

I also have knowledge of Node.js, Java, TypeScript, C#, SQL... With belief and aspiration for creativity, I always want to develop practical applications and products to meet the needs of users.

WORK EXPERIENCE

AI + WEB -

SAO DO University

1) Fashion shop integrated with product suggestion:

Func:

+ System managerment(product, comment, delivery type, rating for product, authorized users).
+ Product suggestions.
+ Lucky spin.
+ Notifications.
+ Comment product(realtimes).
+ Product reviews.
+ Add cart.
+ Favourite products, viewed products.
+ Change language.
+ Change theme.
+ View article.
+ Pay for VNPay.
+ SEO optimization.
+ Find By price, type, best seller, latest.
+ Drop heart.

Tech:

FE: NextJS, Redux Toolkit, React auth, React hooks form, Materials UI, socket.io-client, jwt.

BE: NodeJS, ExpressJs, surprise - python, MongoDB,middleware, jwt, node-mailer.

Time: 2 month.

Member: 1.

IOT -

SAO DO University

1) Automatic watering system and temperature and humidity monitoring:

Func:

+ Automatically water and stop watering according to soil conditions.
+ View current temperature.

Tech:

+ C++, Blynk, module-esp-32, relay, temperature and humidity sensor.

Time: 1 month.

Member: 1.

MOBILE APP 2022 - 2023

SAO DO University

1) Building multiple choice exam marking software:

Func:
+ login.
+ Rank user.
+ Exam level.

Tech:
+ php (make to API), java, xml, Volley(call api), Recycleview ,cardview.

Time: 1 month.

Member: 1.

2) Building student portal software for Sao Do University.

Func:
+ Teacher and student decentralization.
+ Notifycation (to class and to all student).
+ Show Calendar (by day, month, year, subject, Semester, Teacher), scores.
+ Edit info my self.
+ Show students by class, teacher.
+ Show regulations.

Tech:
+ php (make to API), java, xml, Volley(call api), Recycleview ,cardview, etebarian.

Time: 2 month.

Member: 1.

WEB APP -

SAO DO University

1) Build exam management website:

Func:
+ Decentralization of teachers and students.
+ Upload types of file(up to 10gb).
+ Subject managerment by specialized, Cohort.
+ Comment, approve the the student's exam.
+ Status of the exam.

Tech:
+ FE: React, Redux, Antd, scss.
+ BE: ASP.NET core, Entity, Sql server.

Time: 2 month.

Member: 1.

2) Build a website to register for retakes, restudy, and improve:

Func:
+ Decentralization of teachers and students.
+ Upload Academic request form file, Reason content, score, register type.

Tech:
+ FE: React, Redux, Antd, scss, react view pdf.
+ BE: laravel + mysql.

Time: 2 month.

Member: 1.

3) Build a website selling clothes:

Func:
+ Products managerment.
+ Approve orders.
+ Card product.
+ Checkout.
+ Detail product.
+ Buy product.
+ Discount.

Tech:
+ Django, html, css, mysql, js.

Time: 1 month.

Member: 1.

4) Build e-commerce website:

Func:

+ Products managerment.
+ Approve orders.
+ Card product.
+ Checkout.
+ Detail product.
+ Buy product.
+ Discount.
+ Comment product.

Tech:

+ Php, html, css, mysql, js.

Time: 1 month.

Member: 1.

GAME APP -

SAO DO University

1) Build a plane shooting game :

Func:

+ Score, Kill competitor.

Tech:

+ PhaserJS.

Time: 1 month.

Member: 1.

2) Build flapy birt game:

Func:

+ Score, overcome obstacles.

Tech:

+ PhaserJS.

Time: 1 month.

Member: 1.

DESKTOP APP -

SAO DO University

1) Build employee and payroll management software.

Func:

+ Staff managerment.
+ Staff's salary.
+ Haircut history.
+ Revenue.

Tech:

Windown form.

Time: 1 month.

Member: 1.

EDUCATION
